Lingerie has changed a lot through the ages but has always remained a means of seduction by showing off the female form in all its beauty. Although lingerie can be worn for functional purposes we can now have sexy lingerie for every day wear as well as using it to accentuate our bodies for a romantic evening.

Wearing lingerie with different patterns, colours & styles can set the scene for a very romantic evening. Whether you are the confident type that like to bear all or a little shyer, there are many different styles of lingerie to complement every body shape.

With so much to choose from how do you go about choosing the right [sexy lingerie](#) for that perfect evening? The web is a good source and place to view different types of lingerie that can be used to accentuate your body for that special evening.
